An Injunction in Elyria.

E. G. Johnson, a taxpayer, in behalf of the city of Elyria, a taxpayer, has brought an action in the court of Common Pleas of Lorain county against said city to enjoin the issuing or sale of the \$150,000 bonds, known as "water works construction bonds," on the ground of the illegality of the proceedings of the council and others authorizing said issue. Persons contemplating buying said bonds would do well to take notice of this fact, as anyone purchasing said bonds under the circumstances will do so at their own risk. Mr. Johnson is confident that the bonds so proposed to be issued will be declared void by the Supreme court. It is certain that this suit will be carried to a final issue in the court of last resort, as a large number of taxpayers have combined to test the question.—Elyria Reporter.

Paying Investment.

That an electric line running from the lake shore south, through North Amherst, Oberlin and Pittsfield, to Wellington would be a paying investment there is not the slightest doubt, and the wonder is that it has not been built long ago. The line between Elyria and Lorain cannot run cars enough to accommodate its patrons, and it is asserted on good authority that the road has paid this summer one hundred per cent profit on the investment. A north and south road through this part of Lorain county would be even more liberally patronized at least nine months in the year than the one between Elyria and Lorain.—Oberlin Owl.
